President Browning Heard. After the hymn "Onward, Christian Soldiers," Rev. Dr. Kaufman turned the further conduct of the meeting ov-er to President Browning of the As-sociation, who acknowledged the kindly greeting of the pastor and said that he felt certain that he was addressing an audience of friends of the Y. M. C. A. He spoke of the notable presentation of the Association's work which had been accomplished by the eleven speakers of the morning, the first time this had ever here done and he gave this had ever been done, and he gave three reasons why he considered the Association was worth while: 1. Because it is an Association right in our midst. 2. Because it is for the young men and boys, the class more subject to temptation than any other. 3. Be-cause it is for service and takes as its example the man who came for service

General Secretary Morse. General Secretary W. A. Morse spoke briefly of new things that had been done in the six months he has been here. Among these had been changes in the arrangement of the office floor which had proved beneficial, and a series of successful mill and shop so-clais, which brought many men and boys into acquaintance with the Y. M. C. A. work. Instancing the way the Association building had been used for meetings for organizations working for the moral uplift of the community, he said that the spirit of the Association was that of co-operation along these lines, and that it stood for helpfulness in these endeavors.

Ex-Governor George H. Utter. The speaker of the evening, ex-Governor George H. Utter of Rhode Island, was next presented by President Browning, treating his topic, Association Work, Its Place and Opportunity in the Community, in a clear and forceful way that held the close attention of his hearers. Referring to the fact that this was the 25th anniversary of the local Association, there were

SPOKE TO BIBLE SCHOOL. Hyman Stabinsky, a Converted Jew, Heard at the First Baptist.

At the Bible school session of the At the Bible school session of the First Baptist church, Sunday noon, all were much interested in the story of Hyman Stabinsky, a converted Jew. His ambition is for an education in order to do missionary work among his own people. He told the story of his conversion simply and earnestly, impressing all with his sincerity. Mr. Stabinsky is to be at the regular prayer meeting of the church Thursday evening, when he will speak more at length of his conversion and work.

The annual anniversary service of the Young Men's Christian association, which was the 25th, in which most of the churches united, was held Sunday evening at Trinity Methodist Episcopal church, which was filled to its capacity by an interested congregation. The anniversary day had been begun with the morning services in eleven of the city churches, where the pulpits were filled by the general secretaries from other Connecticut cities and one from Massachusetts, who spoke to large congregations of the work done in general and in their own fields. The whole programme was the beginning.

The anniversary service of the work done in general services in eleven of the churches. In the last ten years the amount of property, represented in buildings for Y. M. C. A. use, had grown from 26 to 86 1-2 millions, and this is not money that has been given by people without a thought of what their gifts were worthily placed. There is talk of the need of the conservation of our natural resources, timberland, coal, water privileges, and others, but the Y. M. C. A. is engaged in a conservation work far more important than all others. It is the conservation of the boys and young manhood of the country, the first thing the country should think of, and there have been 30,000 boys under the scope of the Y. M. C. A. in the past year. There is

should think of, and there have been 90,000 boys under the scope of the Y. M. C. A. in the past year. There is the educational side also, which makes the showing in 1909 of a total of 70,000 in classes and educational clubs. These men are in the classes with a purpose to learn and they are getting the kind of teaching that is making them effective and better citizens. There is a great work also done along immigration lines, having eight port secretaries. The Association is against the polley of letting these foreigners drift and these incoming aliens are hungry for the help the Association is giving. Over 75,000 railroad men are touched by this department and there is a great work in the colleges and the navy.

The Hinge to Save Our Government.

The Hinge to Save Our Government Through the Y. M. C. A., the speak-er said he finds the hinge to save that thing you and I cling to, our govern-ment. The great hazard affecting the American people seems to be the loss of conscience. To guard against this we must keep before us the principles of Jesus Christ, and the Y. M. C. A. comes in to teach the young man these. It is the place where his mus-eles are made strong and his brain clear so that he may follow the Mas-

Methodist church. Judge Munger of Ansonia delivered an exceptionally powerful address, emphasing the need of the Y. M. C. A., partly on the ground that so many fathers wasted time in clubs and lodges that ought to have been given to the training of their children.

At the First Baptist church, Rev. A. F. Bromley, secretary of the Ansonia Y. M. C. A., spoke earnestly and interestingly of the work, bringing his thoughts under the four departments, athletics, educational, industrial and religious. He urged all, as a church and individuals, to do everything possible to support and encourage the Y. M. C. A. which is a medium of good for the young men of the city.

of the local Association, there were two texts that made a starting point for the words of the speaker. "Others have labored and ye have entered into their labors," is not to be taken to mean that we are on Easy street, 9r there is that other word, "To whom much is given, from him is much required," that makes us stop and hold our breath when we realize its import. The things that have been accumulating through 25 years are not to be lightly entered into.

Although a difficult work it was given with praiseworthy effect, the chorus, duet and solo numbers showing the result of careful preparation and thorough understanding. Much credit is due miss Caroline Thompson, organist and choir director, for the successful result.

The solo work was by Miss Mabel S. Clark, soprano, who sang with sweetness and expression, and Hugh Kinder, bass, whose rich voice filled the church. Their duet, Search Me, O God, was cleverly sung. Among those in attendance were many of the choir members and directors of the city and most complimentary were the opinions expressed on the result.

IF SICK--WHY PAY

Unless Health First Returns. Unless Health First Returns.

Here is what should and can be done!

Now you would not willingly pay for food that was worthless—would you?

Then why pay for medicine until that medicine first proves to yo. its actual worth?

Positively knowing what Dr. Shoop's Restorative can do for the sick, I say to all 'don't pay unless health first returns'. And I back my Restorative with a signed and scaled way 'No help, No pay' contract.

I positively pledge to the sick everywhere that "Dr. Shoop's Restorative is absolutely free if it fails". Let others do the same-or else pass their prescriptions by.

ly free if it fails". Let others do the sameor else pass their prescriptions by.

If you need more strength, more vitality,
more vigor or more vim, use my Restorative a
few days and note the immediate improvement.
When the Stomach, Heart, or Kidneys se
wrong, then test br. Shoop's Restorative. I do not
does the Stomach nor stimulate the Heart or Kid
neys, for that is wrong, Years ago I cast away tha
mistaken idea in medicine. The books below will
best tell you how I am succeeding.

Those books also tell of a tiny hidden "in
side nerve," no larger than a siken thrend. They
tell how that nerve, until it fails, actually give
to the Heart its power, its tone, its never-ending
action or impulse. to the Heart its power, its tone, its never-ending section or impulse.

These books will open up new and helpful ideas to those who are not well. They tell how the Stomach, and Kidneyseach have their "inside" or power nerves. They tell how the Restorative was especially made to reach and revitalize these weak or failing inside nerves. All of these facts tell why I am able to say, "It is free if it fails." This is why I am "take no chance on a medicine uphose maker dare not back it just as I do by this remarkable offer".

Bo write me today for the order.

Bo write me today for the order.

I have appointed honest and responsible druggists in nearly every community to issue my medicines to the sick.

But write me first for the order.

All druggists sell Dr. Shoop's Restorative, but all are not authorized to give the 10 day test.

So drop me a line please—and thus save disappointment and delays. Tell me also which book you need.

COLONEL TAYLOR NAMED One of Three Army Engineers to It vestigate California Project.

(Special to The Bulletin.)

Washington, May 22,—Lieut.-Co Harry Taylor, who is in charge of river and harbor work for Connecticut with headquarters at New London has been designated by President Taft as one of three army engineers to investigate the proposition of using a part of the HetchyHetchy valley in Callifornia, in connection with the water supply of San Francisco. The three officers have been ordered to Washington to attend a hearing before the secretary of the interior May 25, and later on it is expected they will proceed to Callifornia and thoroughly investigate this question. Colonel Taylor will probably have to be absent from Connecticut for about a month, but as yet no one has been ordered to take his place during that time.

Birthday Party. Saturday evening there was a merry birthday party for Mrs. Ludvig Anderson at her home on Orchard street when about thirty of her friends gathered to celebrate the occasion. A feature of the evening was the presentation of the birthday gift which the friends brought. This was a beautiful set of coffee cups and saucers of fine china. The presentation was nicely made by August Vallin. Music, games and refreshments rounded out the evening delightfully for all present.
